Open and easy to access make-ready environment.

Ergonomic Fold Plates

High Volume Vacuum Transport.

Variable Pressure Quick Release Top Drives

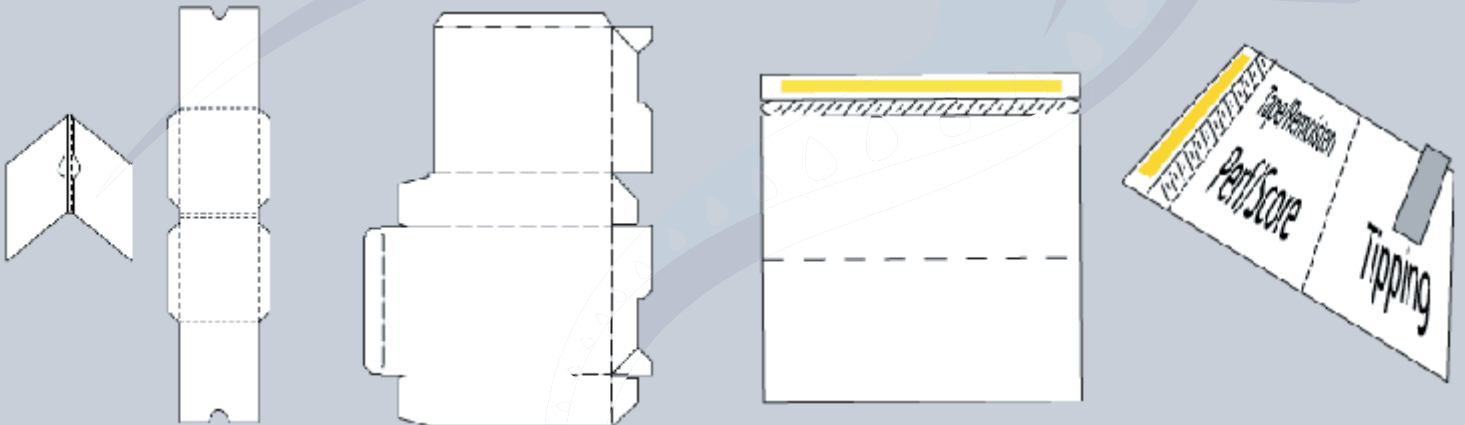

Chameleon Innovations

One Machine for Pocket Folding,
Direct Mail & Packaging Products.

Profile

AdTech Graphic Service as a manufacturer has over the last 10 years developed a TRULY modular approach to Folding, Gluing and Fulfillment for Commercial Print Finishing markets. With over 20 different modules to choose from, this modular approach to manufacturing, allows our users to assemble "On Demand" systems that offer evolving configurations to meet ever-changing demands of the finishing process.

The Chameleon Folder Gluer is a Non-Traditional MultiFunction Folder Gluer that is ideally suited for Commercial Printers and Trade/Specialty Finishing Companies who are seeking a versatile and well built system (Made in USA). The Chameleon System Equipment will convert a variety of products that range from basic pocket folding style projects to complex layouts for CD or DVD style products, while also allowing for the production of many box/packaging products - as well as the finishing of Direct Mail/Promotional Products with InLine placed inserts and affixments.

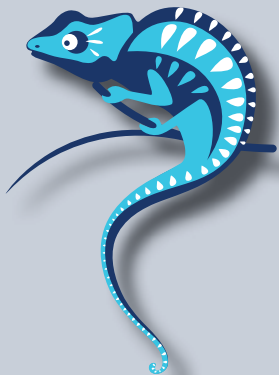

Pocket Folding

Packaging

Direct Mail

Fulfillment

The Chameleon MultiFunction Folder Gluer is designed and manufactured by AdTech to allow Printers, Binders, and Print Finishers the ability to creatively handle a broad range of production requirements.
