

MAGNETON

Machine to insert magnets

max cm 45x76 / 60x100 ⌚ 1400 cycles/h

H 11 - 45/60 cm
W 20 - 76/100 cm
T 1,0 - 3,0 mm

Automatic machine able to insert magnets into covers and folders.

Magneton is able to insert 1 or 2 magnets (optional 4) in the chosen position in a fully automatic way. It can work in line with Roby 1800 Box, or it can work offline next to the other case makers.

It is available:

- in line with Roby 1800 Box
- offline

Magneton is available in two versions:

- in line with Roby 1800 Box

- offline. In this case it is available (suggested option) the hot melt gluing system through nozzles as to guarantee a perfect seal to the magnets.

TECHNICAL DATA

Magnet inserter: n. 2 (optional 4)

Magnet diameter: mm 12

Magnet thickness: mm - 1,8 or mm 2

Mechanical speed: 1400 cycles/h

Power requested: kW 8

Standard voltage: V 400 /Hz 50/3 ph (other voltages are available upon request)

Compressed air consumption (provided by the customer): l/min 450 - atm 6

Dimensions: cms 140 x 850 x h 110

COMPLEMENTARY MACHINES

Stacker

Stacker able to guarantee a perfect piling up and seal to the magnets.

Speed: 1.400 cycles/h
