**FLOOD
OR
SPOT**

14" x 20"
(355mm x 508mm)

simplifying **the coating business**

- Apply UV, Aqueous, Specialty Coatings & Primers
- Flood & Spot Coat...including Textured Spot & Spot Not
- Less Than 5 Minute Coating Change & Clean Up
- Automatic Feeder (up to 5500 sph)
- Easy to Set Up & Change Jobs
- Thin Substrates, No Problem!
- Optional IR Dryer & Automatic Receding Stacker
- Dedicated Coating Support & Solution
- One Stop Shopping for Coating & Supplies

built Kompac tough for long life

KOMPAC KWIK STACK (OPTIONAL)

Simplify your substrate handling and increase productivity

- Automatically descends & jogs while stacking
- Three times more capacity than the standard delivery chute
- One to one feeder to stacker ratio
- Includes two dollies
- Quicker turnaround to bindery
- Equipped with plug & play technology for simple installation (No Technician Needed!)
- KF-26 & KF-32 systems include the Kompac Kwik Stack

KOMPAC KWIK IR (OPTIONAL)

Easily upgrade any Kompac Kwik Finish to run aqueous coatings & primers

- Quickly dries aqueous coatings & primers
- Short wave, high intensity bulbs with instant on/off capability
- Hot air knives for increased movement of heat to the substrates surface and pile
- Equipped with plug & play technology for simple installation

One of a kind coating & curing solution

Kompac Technologies, LLC is the leading manufacturer and supplier of an extensive line of products to satisfy the needs of the graphic arts industry, worldwide!

Made in the USA - Manufactured & distributed from our facility in Somerville, NJ our extensive line of coating products include: offline UV/aqueous coating equipment, IR dryers, stackers, feeders, solution vacuum, UV/aqueous coatings & environmentally friendly cleaners. In addition, Kompac offers a complete line of coating blankets, packing, mylar plates and UV/IR replacement bulbs.

The Kompac Kwik Finish is an exciting offline coating and curing system, providing a quick and easy way to apply UV, aqueous, primer/sapphire & specialty coatings to a wide variety of papers and substrates.

From very thin paper to plastics, card stock & lenticular; whether digital output or offset, each job will have the visual appeal, lasting durability, protection and rub resistant finish that your customers expect. Flood or spot coat, the **Kompac Kwik Finish** is the most flexible, cost effective coating system on the market today!

KOMPAC AIR DELIVERY SYSTEM (STANDARD)

- "Patented" Kompac Air Delivery system provides a 'non-contact' delivery of the coated sheet
- Optional pulsating air bar and star wheels available for heavy stocks & substrates

KOMPAC COATING UNIT, PUMP & UV SENSOR (STANDARD)

- "Patented" Kompac coating unit provides on-the-fly coating control & adjustment
- 5 minute coating change & clean-up
- UV Coating sensor automatically detects coating level & replenishes as needed
- Eliminates the need for recirculation (Recirculation contaminates coating resulting in poor gloss & wasted coating)
- "Optional" Aqueous coating sensor available for aqueous coatings & primers

KWIK CHANGE BLANKET BARS (STANDARD)

- Provides a quick and easy method for registering & changing coating blankets and spot coating plates

AUTOMATIC FEEDER (STANDARD)

- Up to 5500 sph (sheets per hour)
- Handles a wide variety of stock weights & substrates. Thin substrates...No problem!
- Accurate registration of every sheet for spot & spot-not coating
- Automatic double sheet detector

*Note: Heavier stocks may require additional hardware

MARKET DEMAND HAS INTENSIFIED

"The demand for UV Coating has intensified in the past decade, especially in the digital environment. The result is a product that looks great but is also protected from the elements, and has extra durability for repeat handling. Kompac Coating Systems will add depth and appeal to printed pieces. The colors appear brighter and more vivid with a rub resistant finish." - Tom Hayes, President of Kompac Technologies, LLC

DIGITAL OUTPUT, NO PROBLEM!

The **Kompac Kwik Finish** is proven successful on most digital print engines.

Xerox users - the independent coater & conveyor controls eliminate problems inherent with toner re-wetting.

HP users - the ability to Sapphire treat your own HP Indigo paper & plastic will save you up to 70% on pretreated substrates.

The **Kompac Kwik Finish** is perfect for:

- HP
- Xerox
- Konica Minolta
- Océ
- Presstek DI
- Xeikon
- Ricoh
- Kodak
- Canon
- KBA
- FujiFilm & more
