## CreaseMaster™ Series

The CreaseMaster™ is designed with the digital marketplace in mind. The system impact scores materials prior to folding, eliminating the problem of toner cracking on digitally printed stock. Traditionally printed stock that exhibits cracking problems will also benefit from an impact score before folding, ensuring a professional finish. Solid construction gives years of reliable performance.

Graphic Whizard has a CreaseMaster™ that is right for any job and budget with five systems to choose from: The CreaseMaster™ Platinum, The CreaseMaster™ Plus+, The CreaseMaster™ Pro, The CreaseMaster™ SCP and The CreaseMaster™ MCP and MCOS.

**5 YEAR LIMITED WARRANTY**
