Max. load	1000 kg	
Stroke	800 mm	
Up and Down speed	About 30 mm/sec.	
Motor rating	0.4kW 200V 3 phase	
Dimension	W 1288 x D 1028 H 1540 mm	W 1438 x D 1178 H 1540 mm

Cautions

If the work floor is not flat, but rugged, use the table end as the basis for installation of the automatic lifter

If the work floor is not horizontal, the automatic lifter should never be installed on the floor, since the block of sheets on the lifter may crumble and get loose

<http://www.kudo-ace.co.jp>

The specifications and outside view of the automatic lifter may be altered for improvement without a previous notice.
