

MOLL

Double-Sided Tape Application Machines

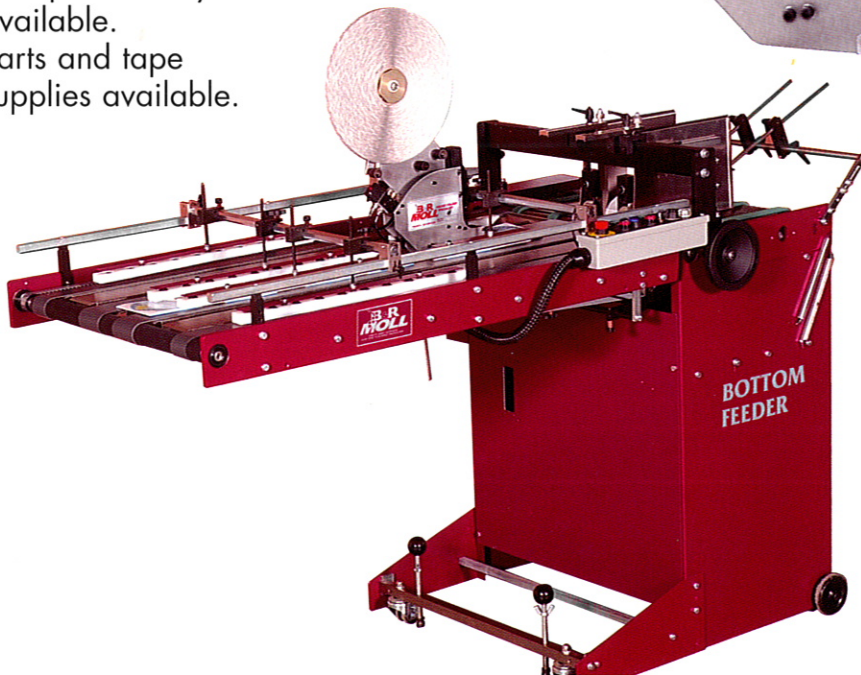

MOLL's Tape and Tape Application Machines offer simple solutions for applying double-sided tape to a wide range of finished products. Our tape is available in 1/2" up to 1" widths.

Our Tape Dispensers can be purchased as an add-on unit for existing machinery, such as your folding machine or mailing systems. We also offer a complete off-line, mobile system with an integral feeder and conveyor table which allows fast, simple production of an infinite range of work.

- Simple, user friendly operation.
- Realistic and affordable pricing.
- Multiple head systems available.
- Parts and tape supplies available.

- Applies double-sided tape to envelopes, CD Jackets, mailers, etc.
- Attachment can be used with existing machinery.
