

# Rollem Slipstream

The most profitable and accurate two directional single pass slit, collator currently available.

**Rollem**

A machine that  
can modernise  
your production  
line overnight.

With the Slipstream, Rollem are asking you to completely change your thinking on card conversion and packaging profits.

## The Rollem Slipstream

A machine that uses a quarter of the manpower in an eighth of the time and in so doing increases your productivity ten or even twenty fold - with the ultimate Rollem accuracy.

The reality is here . . . it's called 'The Slipstream'.

### Revolution

Reduce capital equipment, labour costs and factory space - modernise your production line overnight!

Rollem are the front runner in the trading, gaming and playing card industry. Their unique in-line finishing and packaging system 'The Slipstream', processes full sheets, slits them in two directions and collates all in one pass! All this and . . .

### Cost and Time Saving

What once took over 40 highly skilled and trained staff now takes just one operator a few days to completely master.

Your company can cut, score, perf, collate up to 500,000 pieces in one hour. Saving money as you go, on material movement backwards and forwards, to and from the guillotine and collating machine.

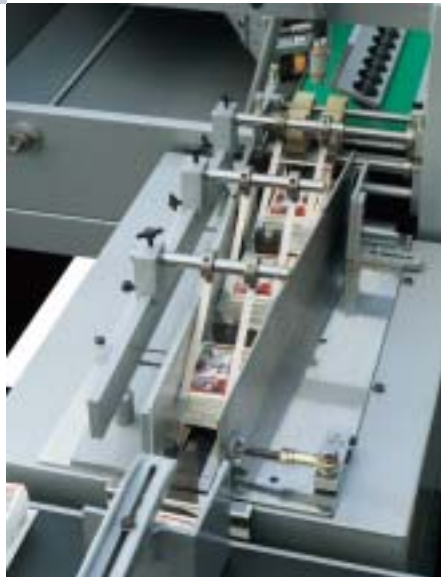

An ideal partner  
for any security  
sizing application.

## The Ultimate Finishing Machine

Complete elimination of separate guillotine, collating, perfining and scoring options means you can shrink wrap, box, die cut, round corner or over-wrap all on line.

At the push of a button  
the Slipstream:

- trims the sheet
- cuts the sheet into rectangular portions
- perfs and scores
- collects and delivers the portions into a fully collated stack or individual packs.

The total finishing  
option that delivers  
collated product to  
packaging.

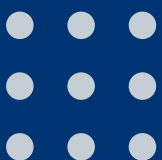

## Accuracy

With the Slipstream comes an unprecedented 0.05mm margin of accuracy. A product so perfect, that cards produced six months ago from a different batch will marry identically to those produced in a new run today.

Trading Cards, Playing Cards, Game Cards, Coupons, Business Reply Paid Cards, Post Cards, Greeting Cards, Event Tickets, Lottery Tickets, Scratch Cards, Time Cards, Bingo Cards and Currency.

Rollem, you just can't lose - the winning answer's all in the cards

TECHNICAL SPECIFICATION
