KUGLER

Fully automatic punching system

- [Zoom photo](#)
- [Operation](#)
- [Perforation chart](#)

With a single operator the Kugler automatic punch can punch up to 100,000 sheets per hour: ring binder inserts, calender pages, tab and register-cut sheets made of cardboard and plastic, paper for wire-bound products (spiral and double wire binding) special punching and much more.

- continuous feed and unloading for maximum productivity
- materials are taken from the top of the stack for best results on a wide variety of materials.
- trouble-free punching of mixed materials (i.e. cardboard and paper).
- turn-over drum keeps the punched pages in original sequence.
- sheets are aligned precisely just prior to punching for highest accuracy
- format and die changes can be done quickly and involve only a few adjustments.
