

## VFZ 52 and VF 66 four-directional knife folding units

|                                      | <b>VFZ 52</b>                                    | <b>VF 66</b>                                    |
|--------------------------------------|--------------------------------------------------|-------------------------------------------------|
| <b>Control system</b>                | <b>MCT, DCT 2000, DCT 500<br/>Rotating knife</b> | <b>MCT, DCT 2000<br/>Option: Slitter shafts</b> |
| Max. size,<br>width × length cm (in) | 52 × 36<br>(20.47 × 14.17)                       | 66 × 56<br>(25.98 × 22.04)                      |
| Min. size,<br>width × length cm (in) | 12 × 10<br>(4.72 × 3.94)                         | 15 × 10<br>(5.91 × 3.94)                        |
| Max. speed m/min (ft/min)            | 160 (524.93)                                     | 180 (590.55)                                    |
| Min. speed m/min (ft/min)            | 25 (82.02)                                       | 25 (82.02)                                      |
| Max. cycling rate cycles/h           | 30,000                                           | 30,000                                          |
| Infeed height cm (in)                | 51.5–91.5 (20.28–36.02)                          | 50–95 (19.68–37.40)                             |
| Power consumption kVA                |                                                  |                                                 |
| 3 × 400 V, 50/60 Hz                  | 0.8                                              | 0.8                                             |
| 3 × 230 V, 50/60 Hz                  | 0.8                                              | 0.8                                             |

Technical data can vary according to machine configuration, job, format, ink, printing stock and, possibly, other factors.
