wohlenberg PERFECT BINDING

VERDEN, GERMANY

Gatherer/Winjector Technology

Signatures or individual sheets are horizontally loaded, at a 25 degree angle, for a faster path to the line chain, where they are transported upright on the spine. Our Winjector technology uses compressed air to generate customized vacuum control. This technology eliminates vacuum pumps while reducing machine noise levels, energy consumption and maintenance. On average, each feeder can be makereadied in two to three minutes.

Single Pass Gatefolded Books

With our patented VSS Foreedge Trimming process, gatefolded products can be completed in a single pass. Whether purchased separately or in combination, our "Roll Away" KRF Cover Folder Feeder can score gatefolded product inline, while all product inputs are adjusted through the Navigator touch screen.

Spine Preparation

Dual Spine Prep is standard on our Quickbinder, and City models. The Vento series offers a third prep station. After the milling section - within all three models - the use of a multi-knife head opens up the spine's fibers in a more effective way than a notching head. The result is a stronger "page pull" test of the finished book.

	Quickbinder	City e	Vento
Max. Speed	2,000 CPH	6,000 CPH	7,000 CPH
Clamps	5	15	18
Spine Length	16.93	14.57"	17.12"
Spine to Face	12.60"	12.67"	12.59"
Thickness	0.08" - 2.76"	0.08" - 2.44"	0.08" - 2.44"
VSS/KRF	✓	✓	✓

SUPERIOR QUALITY & MODULAR DESIGN

QUICKBINDER

2,000 per hour, hand feed

Real Time EVA Speeds

1,650 to 1,800 per hour

Real Time PUR Speeds

1,300 to 1,400 per hour

Gauzing

Fed from the side, this option can be retro-fit at any point in time.

Spine Prep

A two step, milling and multi-knife head design penetrates paper fibers better.

Spine Length

17" Max. Spine Length exceeds Horizon by 4".

Fast Changeover

90 - 120 second, tool-less size format changeovers.

Personalized Books

Ask us about our Delta 10 Variable Clamping technology.

Self-learning Winspector Cameras

With a patented, integrated barrel melting recirculation system, our PUR glue is available in roller, or nozzle style

All job inputs occur via the Navigator. Dynamic Drives allow for tool-less changeovers.
