

Bacciottini Creasing & Folding Machines – Since 1983

Founded in 1983, Bacciottini Group is a leading company in engineering and manufacturing completely automated machines to perform creasing, folding, perforating, and punching functions. Bacciottini products are globally recognized and appreciated for quality, efficiency, long-life, and ease of use. 5,000 of these units have been installed world-wide, with many still in production 20 years later.
