# CREASING AND FOLDING

**MULTIGRAF FOLDING SOLUTIONS**  
PARALLEL FOLD PAPER FOLDER / CROSS FOLD PAPER FOLDER

**715SM**  
2 Folding Plates

**435SM** \* 2335KM  
Cross Fold in Combination  
With A Folder

Touch Line 43735  
\* 2335KM (Paper 40 x 55 x 1.00)

**Touch Line**  
This machine represents a new generation of paper folders. It is designed to be used in a multi-stage process, allowing for the production of complex folded products. The machine is equipped with a touch screen interface, making it easy to use and adjust to different paper sizes and folding requirements.

**Features**

- Touch screen
- 2 or 4 folding plate models
- Can be combined bottom cross applications

**Options**

- Cross fold units
- 435SM (4 plates)

**Highly adaptable**  
The machine is highly adaptable to different paper sizes and folding requirements. It can be used for a wide range of applications, from simple parallel folds to complex cross folds.

**Modular design**  
The modular design of the machine allows for easy expansion and customization. It can be used as a standalone unit or as part of a larger production line.

**Easy to use**  
The touch screen interface makes the machine easy to use and adjust. It is suitable for both experienced operators and new users.

**Robust construction**  
The machine is built with a robust construction, ensuring long-term reliability and durability. It is designed to handle high-volume production runs.

**TOUCHLINE CF375**  
CREASING AND FOLDING IN ONE APPLICATION

SWISS MADE

**Features**

- Large dimensions
- High production capacity
- Available with top and bottom cross fold

**Options**

- Automatic registration
- Automatic registration
- Automatic registration
