AROGLIA

SAROGLIA

From 1911 **SAROGLIA** is an authoritative name in the press. Taking advantage of a past so important will still look with passion and innovation to the new needs of the market. Today companies require finishing processes ever more specific and high quality materials.

SAROGLIA meets these requirements with high-performance, highly flexible machinery for the application of hot and cold foil and UV Casting. Common features and ease of use, which results in a great economy of operation.

Gold
